

Singamas was awarded 2025 TVB ESG Special Recognition Award – with Merit

Ms. Chung Pui King, Rebecca, Chief Financial Officer and Company Secretary, received the TVB ESG Special Recognition Award – with Merit on behalf of Singamas

Singamas Container Holdings Limited (Stock Code: 716) has been awarded the 2025 TVB ESG Special Recognition Award – with Merit.

The TVB ESG Awards is an annual event organised by Television Broadcasts Limited to recognise organisations with outstanding performance in the field of Environmental, Social and Governance (ESG). The award is rigorously reviewed by a panel of professional judges to select industry leaders who promote ESG awareness and sustainable development practices in Hong Kong and the Greater Bay Area. This accolade holds significant prestige, as it not only recognizes the innovative strategies and social contributions of the award-winning institutions, but also allows the public

to have a deeper understanding of ESG concepts, encouraging more companies to participate in the green transformation, and injecting impetus into the realization of a zero-carbon society.

This achievement stems from Singamas' multifaceted practices and contributions in the ESG field. For instance, in the environmental aspect, the company's Huizhou plant in the Greater Bay Area obtained the "Excellent Waste-Free Factory" certification and was rated as a "Municipal-Level Green Factory" in 2025. In governance and social aspects, Singamas actively fulfills its corporate social responsibilities, including establishing a top-down supervised ESG working group, participating in multiple international and national green power generation projects, continuously securing various ISO certifications, supporting numerous charitable donation initiatives, and proactively enhancing corporate transparency through social media channels.

The award presentation ceremony was held at the Hong Kong Convention and Exhibition Centre on 19 December 2025 and was received by Ms. Chung Pui King, Rebecca, Chief Financial Officer and Company Secretary. This accolade is a recognition of the efforts of the Singamas team, and we will continue to drive innovation and contribute to a sustainable future.
