

SINGAMAS UNVEILS ITS BATTERY ENERGY STORAGE SYSTEM

SHAPING ASIA’S GREEN ECONOMY WITH ADVANCED BATTERY STORAGE TECHNOLOGY

(Hong Kong, 16 October 2025) – **Singamas Container Holdings Limited** (“Singamas” / the “Group”) (stock code: 716), a global leader in container manufacturing and logistics services, announced that its wholly-owned Singapore subsidiary, **Green Tenaga Pte. Limited** (“Green Tenaga”), an energy storage solution provider, officially unveiled *TenagaVault*, a 10-foot all-in-one Battery Energy Storage System (BESS) developed by Green Tenaga, at the event “*Sustainable Energy Solutions: The Role of Battery Storage in a Green Economy*,” co-hosted with the Institute of Technical Education (ITE) and Narada Asia Pacific Pte Ltd (“Narada”) held at ITE College East, Singapore on 10 October 2025. This milestone will mark a significant step forward in Asia’s clean energy journey and talent development efforts.

Equipped with Narada’s lithium battery, and developed over the course of 12 months of dedicated research, *TenagaVault* incorporates some of the most stringent fire safety standards and advanced design features, setting a new benchmark for safe and resilient energy storage solutions.

Partnership for Impact

A key highlight of the event was the signing of a Memorandum of Understanding between Green Tenaga, Narada and ITE to co-develop specialised training programmes in energy storage. As part of this collaboration, Green Tenaga and Narada will provide ITE with the *TenagaVault* Battery Energy Storage System (BESS), giving students direct access to industry-grade technology.

TenagaVault

Advancing Energy Storage for Asia

TenagaVault is more than just a showcase of engineering excellence; it will also serve as a practical base for education, research, and innovation.

The management of the Group, said: “Battery energy storage is more than just technology. It represents robustness, flexibility, and safety, while also creating the talent pipeline that is essential for Asia’s energy transition. By working closely with educational institutions and local technology partners, we are ensuring that the next generation of engineers and technicians gain the practical skills and knowledge needed to support a resilient and sustainable green economy.”

As the world moves towards net-zero goals, Green Tenaga, with its unique ecosystem of technology partners, continues to invest in both innovative technologies and talent. The Group believes that Green Tenaga has opened new avenues for the Group’s future business growth and enhanced the overall sustainability performance.

About Singamas Container Holdings Limited

Singamas is a renowned container manufacturer and logistics services provider in the world. Its manufacturing business covers container factories located in the PRC that focus on the manufacturing and leasing, R&D and sale of dry freight and specialised containers, while its logistics operations include container depots located in key locations in the PRC, as well as a logistics company in Xiamen, the PRC. Riding on its comprehensive investment strategies, the Group is consolidating its market leadership in the global container industry. For details, please visit: www.singamas.com.

About Green Tenaga Pte. Limited

Green Tenaga Pte. Limited, an energy storage solution provider, is a wholly owned subsidiary of Singamas Container Holdings Limited. Leveraging the group’s expertise in manufacturing, fabricating and integration of Battery Energy Storage System (BESS) since 2017, Green Tenaga is expanding its footprint across the ASEAN region. The company delivers end-to-end BESS solutions, including system design, technical engineering support, project management, and after-sales services, supporting the green and low-carbon transition.
