

## Singamas Won

### ESG Green Development and Carbon Neutrality Grand Award — Outstanding Green Application Award

Chief Financial Officer and Company Secretary Ms. Chung Pui King, Rebecca, represented Singamas in receiving the award

Singamas Container Holdings Limited (Stock Code: 00716), leveraging its self-developed **Singamas Green Smart Energy Storage System — Energy Storage System Container (“ESS Container”)**, has won the third **ESG Green Development and Carbon Neutrality Grand Award — Outstanding Green Application Award — Green Technology Product (Energy Storage System Container)**. The award was organized by *am730* and co-organized by the Institute of Financial Technologists of Asia (IFTA) and the Institute of ESG & Benchmark (IESGB).

The award ceremony was held on 14 April 2026 in Hong Kong. A total of 18 enterprises received 20 awards in total. The event was officiated by Mr. Joseph Chan, Under Secretary for Financial Services and the Treasury of the Government of HKSAR. Mr. Chan praised the winning enterprises for integrating ESG principles into their daily operations, thereby advancing the green transformation of Hong Kong and Asia. Mr. Wilson Kwok, founder of IESGB, noted that the judging panel this year utilized AI technology to accurately analyze corporate data and gain deeper insights into enterprises’ sustainable development strategies. He believes that enterprises leveraging green technology will achieve long-term sustainable development.

Singamas has been actively investing in green technology research and development. The award-winning green technology product, the ESS Container, effectively enhances the stability of renewable power generation and grid connection, significantly improving the utilization rate of renewable energy and driving the application and transformation of renewable energy globally. The patented design of Singamas’ ESS Container fully meets the energy storage and intelligent energy management needs of large-scale renewable energy power plants.

With global new ESS Container installed capacity repeatedly reaching new record, Singamas’ ESS Container have become a benchmark of green manufacturing, making a valuable contribution to carbon neutrality in Hong Kong and the world.
